Introduction

The ABmunis Elections Procedures provide detailed guidance on how elections are conducted during the Association's Annual General Meeting, which is typically held as part of its annual Convention.

Candidate Information

The Association ensures that the following information is made available to Regular Members:

- a. Biography - each candidate must submit a biography in accordance with the requirements outlined in the Candidate Information and Nomination Package.

Insufficient Nominations

If there are no candidates for certain positions on the Board following the nomination deadline, the Returning Officer will issue a further call for nominations with a nomination deadline of 11:59 p.m. on the day before the AGM is held.

If there are still no nominations, the new Board, once duly convened, will either appoint a person to fill such vacancies (see Bylaws, Article 8.10 and 8.11) or call for applications.

If the Board calls for applications, it will determine a deadline for application forms. **Application forms will not be accepted after the deadline.**

The person appointed must be a person who would be eligible for nomination if an election were held.

Acclamation

If at the close of nominations, the number of persons nominated for any position is the same as the number required to be elected, the Returning Officer will declare the persons nominated to be elected by acclamation.

If any election is decided by acclamation, the Returning Officer will proceed immediately to the next election.

Withdrawal of Nomination

A person who has filed completed nomination documents may withdraw the nomination at any time, prior to the commencement of the relevant voting segment.

If the number of remaining nominees is less than the number required to be elected to the position, the Returning Officer will re-open nominations with a deadline of 11:59 p.m. on the day before the AGM.

Voting delegates, who have registered for Convention, will receive an email before the AGM. The email will include:

- a. Login credentials to vote,
- b. Instructions on how to vote, and
- c. A link to a test vote to confirm you received your voting credentials in advance of the elections.

The voting delegates will need to use their own electronic devices with internet access to log into the voting platform to cast their votes.

Each voting delegate will only have access to the specific election they are entitled to vote in on the voting platform.

General Order of Elections

The general order in which the 2025 elections will be conducted is:

- a. President,
- b. Director(s) Cities up to 500,000 population,
- c. Director(s) Towns,

- e. Any Director by-election required,
- f. Vice-President Cities up to 500,000 population,
- g. Vice-President Towns, and
- h. Vice-President Villages and Summer Villages.

Time to Vote

Voting will follow immediately after the candidate addresses. 45 seconds will be allowed for each vote.

Individual Voting

There is neither advance voting nor proxy voting for any of the Convention elections. Each registered voting delegate must enter their own vote using the link provided.

If a registered voting delegate is physically incapable of using the voting link, that voting delegate may request a Deputy Returning Officer to enter the vote, as the voting delegate directs.

Secrecy of Vote

Voting by entering a vote using the link is the electronic equivalent of a secret ballot.

A Deputy Returning Officer who enters a vote for a registered voting delegate who is physically incapable of using the voting device must keep the entering vote a secret.

Technical Support for Improper Voting Links

A voting delegate whose voting link malfunctions during the voting period must contact technical support.

Any Association employee who provides a voting delegate with assistance will refer the delegate to technical support. The technical support team can be contacted as follows:

Post Vote Procedure

Counting of Votes

Immediately after the closure of voting, the online voting platform will tally the votes cast for each candidate.

Returning Officer Review of Voting Results

The Returning Officer will review the voting results and confirm the results prior to displaying and announcing results to the audience.

Display of Voting Results

Results will be displayed on the voting platform and onscreen as a percentage of the total.

Election Results

The candidate receiving the highest number of votes will be declared elected by the Returning Officer.

In the case when there is an election for two Directors for Cities up to 500,000 population positions, in the first vote the person receiving the highest number of votes will be declared elected to one of the positions and in the second vote the person receiving the highest number of votes among the remaining candidates will be declared elected to the second position.

Equality of Votes

If two or more candidates receive an equal number of votes, the Returning Officer will declare a tie.

The Returning Officer will then declare a second vote for the two candidates with the highest number of votes and will allow voting delegates 45 seconds to cast their votes on the voting platform.

In the event of a second tie vote, the Returning Officer will write the names of those candidates separately on blank sheets of paper of equal size and of the same colour and texture, and after folding the sheets of paper in a uniform manner so that the names are concealed, will deposit them in a receptacle and direct a person to withdraw one of the sheets.

The Returning Officer will declare the candidate whose name appears on the withdrawn sheet to have one more vote than the other candidate(s).

Declaration of Vote Results

The Returning Officer will declare the name(s) of the person(s) elected:

- for the position of President before the elections for Directors,
- for the positions of Directors before elections for Vice-Presidents,
- for the positions of Vice President, and

- d. for any other position at the conclusion of the election.

No Recount

A recount or revote will only be undertaken at the direction of the Returning Officer if the online voting process fails, or if an objection is found to be valid.

At the discretion of the Returning Officer on a valid objection, either a revote can be undertaken or the position in question may be declared vacant.

Controverted Elections

Objection

Where a candidate or voting delegate presents an objection to the Returning Officer that the election was controverted to the degree of bearing on the outcome, the Returning Officer will immediately determine if the objection is, or likely is, valid.

The scope of such objections includes, but is not strictly limited to, inappropriate nomination documents, the use of a voting delegate's link by a person other than the voting delegate to whom it was assigned, bribery or undue influence of voting delegates and impropriety of election officials or officers.

An objection related to an alleged impropriety of the Returning Officer will be filed with the CEO who will undertake the functions of the Returning Officer described under the headings "Minor Objection" and "Action on Objections."

Minor Objections

The following objections presented to the Returning Officer may be considered not relevant to the outcome of the election but might be addressed by the Returning Officer if found to be valid:

- a. a voting link or voting device was used by a person other than the voting delegate to whom it was assigned with the exception where a voting delegate who is physically incapable of using the voting link obtained assistance from the Deputy Returning Officer, as contemplated above,
- b. the advertising restrictions were violated,
- c. the candidates' names were not listed in alphabetical order (last name, first name), or
- d. a candidate's name was misspelled on the voting link, ballot, or other document.

Action on Objections

Any objection or minor objection must be presented to the Returning Officer within one hour of the election.

Where a valid objection exists, which could have altered the outcome of the election, the Returning Officer will advise the membership, or if the Convention is concluded, advise the Board of that determination.

In either instance, the Board will have the authority to overturn the elections to the extent controverted, and may appoint the new Director(s), as they see proper. This action will be made known to the membership as soon as it is made known to the Board by the Returning Officer.

Destruction of Voting Records

Voting records (electronic or paper) will be maintained in safekeeping for 90 days following the AGM, at which time the voting records will be destroyed.
