

C. Planning, Implementation & Measurement

Creating a shared vision of an inclusive, equitable community provides a framework for planning, policy, and action by the municipality. By measuring the municipality's progress, the municipality can make informed decisions on the next steps needed.

InvisibleCouncil does not see the value of creating a community or organization that is inclusiveThere has been no consideration by management to have inclusion goals be part of strategic plansDiversity issues and services are left for other community- based organizations to address	Awareness Although council sees inclusion as important, it has not formally communicated a vision or goals for inclusion Management is aware of opportunities to update planning documents to include inclusion goals, but no action is taken There is some effort to understand how other municipalities are approaching issues of inclusion, but limited action is taken	Intentional InclusionA vision for an inclusive community is defined and approved by councilThe municipality has a written plan for inclusion with objectives, strategies, and a time linePromising practices from other municipalities and organizations are sought out and used to inform plans and actions	Culture of InclusionPeople at all levels of the organization notice if inclusion is not a consideration during planningAll departments have annual goals related to diversity and inclusion that are actioned and reported onManagers and elected officials consider how marginalized residents and staff may be affected by any
