

# Subdivision and Development Appeal Board (SDAB) Training

Fall 2018

SDABs are an essential part of the land use planning and development framework in Alberta. The boards make decisions that shape the make-up and practices of our communities. Rural Municipalities of Alberta (RMA) and Alberta Urban Municipalities Association (AUMA), with Municipal Affairs are offering workshops to support municipalities through the development of planning capacity, including the preparation and presentation of SDAB training materials. Municipal Affairs has made the SDAB curriculum and supporting materials available to the public on the Municipal Affairs website. The objective of this workshop is to teach the fundamental skills and knowledge necessary to conduct effective hearings and make enforceable decisions to both members and clerks.

Each training session covers topics relevant to SDAB members and clerks while also meeting the provincial requirements. The materials provide an overview of the land use planning and development approval process in Alberta. Additional resources include training exercises and convenient reference materials will be made available.

To facilitate the presentation of these materials across Alberta, RMA and AUMA, with support of Municipal Affairs will be hosting the following full day training workshops:

### **Camrose**
